AD111

Internal addressable device interface

Details

- 2/4 wire internal interface
- Two inputs to monitor alarm and tamper relay
- One output to trigger the LED
- If needed powered through auxiliary power supply
- Fit to EV125/425 & 500 series

AD111

Internal addressable device interface

Technical specifications

General

Accessory group	Bevægelsessensorer
Type	Modul

Electrical

Operating voltage	12 / 24 VDC
Current consumption	330 µA +/-10% from bus

Physical

Physical dimensions	30 x 50 x 12 mm (W x H x D)

Environmental

Environment	Indendør

Bus protocol

	Interlogix property

External power supply

	9 to 13.8 VDC

Unit load for DGP

	1

Address range

	0 to 255

Open collector current output

	100 microA max.
